Objective

I am looking to utilize my skills and experience to shift my career focus from production/manual labor to a professional environment, where I can use my dedication to efficiency and quality in all tasks following established guidelines and policies. I seek a team where I can be an effective member with the ability to work well individually and within group settings. I wish to continue to expand upon the knowledge that I have already gained and an employer where I have opportunity to grow and add to my knowledge.

Relevant work skills

- Maintained detailed records of inventory and production results.
- Reported key and legally required data into government monitoring portal ensuring accurate entry.
- Monitored product for adherence to established standards and made adjustments to remain in compliance.
- Recorded and monitored daily tasks and made recommendations to managers regarding productivity and efficiency.
- Organize and manage a team of warehouse employees including scheduling, payroll, task delegation, daily supervision, and employee reviews.
- Maintained safe and productively efficient work area.
- Performed assigned work functions during shifts in production schedule withing specific production targets.
- Collaborated with team to provide excellent customer service and complete all daily tasks thoroughly and quickly.
